HEADLINE:
New Acting Director at EMTEC/SBDC Announced

*Dayton, OH--*The Edison Materials Technology Center (EMTEC) is pleased to announce that Bart McMannon has been named as Acting Director of Region 4 Small Business Development Center (SBDC) at EMTEC.

The Small Business Development Center (SBDC), provide free services to the public to identify and address business management concerns. The organizations work with start-up, and established businesses in the following ways: Individual counseling, financial assistance information, marketing strategy & planning, cash flow analysis, accounting & financial management, benchmarking assessments, market opportunity analysis, and business lan preparation. Additional assistance to businesses include international trade, patents, trademarks, and financing.

“Bart has performed admirably over the course of his tenure at EMTEC over the last eight years and I am convinced that Bart will continue to add considerable value and enthusiasm to the SBDC program,” said Robert Shinkle, Vice President of Administration and Government Relations.

The Edison Materials Technology Center (EMTEC), host of the MSBDC and the SBDC, is a non-profit organization dedicated to its mission of “accelerating materials related technology to the market”. EMTEC is leading the way in accelerating materials and material processing technologies to commercialization with emphasis on fuel cell and other related high technology opportunities. As a collaborative forming, member-based organization, EMTEC provides technical coordination and commercialization assistance to Ohio’s industry, universities, and government labs. EMTEC provides resources that strengthen Ohio’s industrial competitiveness in automotive, tooling and machining, metal casting, polymer, and fuel cell markets.
