HEADLINE: Dayton To Host Ohio Fuel Cell Coalition Board Meeting

Dayton, OH The Edison Materials Technology Center (EMTEC) of Dayton, OH will host the Ohio Fuel Cell Coalition (OFCC) Board Meeting on December 14, 2005 at Reseach Park Offices in Dayton.

The OFCC is a consortium of industry, academic, and government leaders working collectively to strengthen Ohio's fuel cell industry and to accelerate the transformation of the industry to global leadership in fuel cell technology and applications. The Coalition was established to ensure Ohio's presence both regionally and nationally in current fuel cell discussions. OFCC is supported by grant contributions from Ohio Department of Development, the Northeast Ohio Technology Coalition (NorTech), the Generation Foundation, and by member dues. Several Dayton area entities are members of the OFCC including EMTEC, Faraday Technologies, and AFRL.

The Edison Materials Technology Center (EMTEC) located in Dayton, OH, is a non-profit technology company dedicated to its mission of accelerating advanced technologies to the market. As a collaborative forming, member-based organization EMTEC provides technical coordination and commercialization assistance for potentially high growth materials technology to Ohio's industry, universities, and government labs. EMTEC provides resources that strengthen Ohio's industrial competitiveness in automotive, alternative energy, biomaterials, nanomaterials, tooling and machining, metal casting, composites, and polymer.

For additional information please contact David Swenson by telephone at 937-259-1302 or by email at dswenson@emtec.org or visit EMTEC's website at www.emtec.org for additional information.
